David Settle a farmer living on Sec. 24 10-10-4 about 7 miles south of Winnifred was killed Saturday July 7th, at about 12:30 noon, he had been cutting feed with a team and mow. Mrs. Settle had sent her oldest boy to call him to dinner he stopped the team at the east side of the field about 200 yards from the house, she stated to Constable Bradner it looked as if he was cleaning the mow. knives when the horses bolted, Mr. Settle fell and apparently one of the wheels struck him on the back of the head causing a fracture of the skull. Dr. Cairns who went with Constable Bradner to the scene of the accident, after examining the body said an inquest was not necessary as it was purely an accident. Mr. Hurst undertaker took charge of the body.

The wife and six children the oldest being 9 years and the youngest 8 months are left to mourn his loss.

Born - at Calgary to Mr. and Mrs. L.A. Ostrum of Bow Island a fine baby girl. The Review extends its hearty congratulations.

Mr. L.M. Cullen and family left last Monday for their holiday at the Coast.

Mr. Pierson is Acting Agent while Mr. Cullen is away.

Mr. Gladman left for Toronto on his holidays last Monday. Mr. Caseman of Calgary is relieving Mr. Gladman at the Bank of Montreal.

Mr. Thompson who used to travel for the Newhigh products moved to Cuddale last Thursday.

Mrs. Campion and family left by car on Tuesday enroute to Glacier Park for two weeks holiday.

Miss McDonald who has been visiting Mrs. Kenna left last Monday for Nova Scotia.

Mr. and Mrs. Fred Mowke and son Francis are visiting at the home of Mr. and Mrs. F.O. McKenna for a week arriving here last Tuesday evening.

The Chataquas is coming to Bow Island and will be here on the following dates, 26th, 28th, 27th, 28th, 29th, and 30th, July.

Mr. Bold, Patterson came from Lussland, Sask. the beginning of the week returning Wednesday.

Mr. Barkley and son from Windy, Man. passed through Bow Island on their way to Banff. Mr. Barkley has a tent and they camp out where ever night overtakes them, they intend to stay in Banff for a couple of weeks they are touring in a Ford Car.

Mr. Murray left for Calgary Fair last Saturday.

Mr. Fraser left for Edmonton last Saturday.

Mrs. A.C. Gage and Mrs. Watts the delegates of the Women's Institute returned last Friday after a profitable and pleasant time.

Mr. and Mrs. T. H. Blaine, accompanied by Mrs. Blaine's niece and Francis Halloran went to Burdett last Monday the 4th.

Mr. and Mrs. Archie Hoaglin, accompanied by Mrs. J. Halloran, went to Burdett on Monday July 4th. to take in the ball games etc.

John LaMarsh returned to his farm in Winnifred District on Thursday last.

Reports received from Olds, Alta. that the crops and gardens are looking their best through the recent rain.

Mr. and Mrs. C. F. Henry and daughter of Fertile Plains recently visited at the home of Mr. and Mrs. Bradner.

Constable Bradner quarantined the Connor family fifteen miles south east, for measles.

The United Ladies' Aid will meet with Mrs. F. Taylor on Thursday 14th, July at 2 p.m.

A cordial invitation is extended to all.

Mr. John Lamarch was a business visitor in town last Monday and Tuesday.

Mr. Brook left for Taber on business last Friday morning.

Constable Light from Medicine Hat was in Bow Island and Burdett on business last Saturday.

Constable Bradner was on duty at Seven Persons and Winnifred last week.

Mr. Brook Inspector of the Dependent Children's Department of Calgary was a visitor to Burdett and Bow Island on Thursday last.

The Ladies' Altar Society met at the home of Mrs. F.O. McKenna last Thursday, a very good meeting was held, after which the hostess served dainty refreshments.

The Ladies' Altar Society will meet at the home of Mrs. J. Halloran on Thursday the 14th, July; all members are invited.

A Justifiable Postponement

The Directors of the Western Canada Colonization Association are to be commended for their action in postponing the actual work of bringing in settlers until they secure from the prairie provinces a reasonably firm price list of unsold lands available for sale. The Association will not be warranted in expending the large sum of money subscribed by its backers until it secures reasonable co-operation from the three Governments. It would be nothing short of a disaster if lack of action by the Manitoba, Saskatchewan and Alberta Legislatures should prevent the use of this great fund for the general advancement of the Canadian West.

We look to see the forthcoming conference of prairie province Premiers agree upon some workable basis of action that will facilitate the operations of the Western Canada Colonization Association, as of other immigration agencies. The sooner the twenty million acres of idle land near the railways, now held out of production by more than eighty thousand individual speculators, is brought under the plow, the sooner will good times return, the burden of taxation be lightened and the National Railways achieve a self-supporting basis.

Remarkable Trip In Overland Car

Overland tours of 75,000 miles are not common among Canadian automobile owners but one was completed this month that led into territory from coast to coast, north as far as Edmonton and south to Lower California.

Mr. J. T. Peers, who was in business in Toronto for many years, undertook the trip chiefly for his health's sake and was accompanied by Mr. Roy M. Jones. After preliminary tours through Muskoka, Montreal and the Adirondacks to the Atlantic, they commenced their long trip by way of Chicago and St. Louis and then North again to Winnipeg. Crossing the Rockies through the Crown West Pass, they visited Vancouver and proceeded to Los Angeles. Sleeping in the car every night

proved a wonderful tonic, and they thoroughly enjoyed the trip, which was not marred by a single accident. They were always able to obtain gasoline and neither automobile nor driver proved an obstacle to their journey. After several months in California, every district visited, Mr. Peers and Mr. Jones returned to the West of Mexico and Colorado north, averaging about 125 miles a day.

They brought back two monkeys, one an Australian Java, the other a Philippine. Animals which were photographed on top of the car when driven up to the Toronto branch of the Willys Overland Company. The monkeys, Mr. Peers states are becoming accustomed to their new home very quickly.

Wind On the Stomach
Quickly Relieved

It is a good thing to know just what to do when gas troubles start. Our sufferer relates the following experience: "A few months ago I ate some green vegetables and some fruit that was not quite ripe. It brought on indigestion, bloating, nausea and cramps. I believed gas continually. A neighbor urged me to use 'Nervine.' I took it in hot water, and it gave me relief. I will never again be without this valuable remedy." Nervine is a household necessity. Large 50c bottles sold everywhere.

A Waste.

"Chestnut is the stingiest man I ever knew. He smoked his cigars to the last half inch, threw the stumps and brushed his teeth with the ash." Even then he wasn't satisfied and stopped smoking.

"Why?"

"He couldn't think of any way to utilize the smoke."

Good-looking girls are born, but most good-looking women are self-made.

It sometimes happens that a shady character backs in the sunshine of popularity.

Cuticura stops dandruff, itching and irritation and makes every hair grow. It is the most successful treatment for the scalp and the hair. It is the most successful treatment for the scalp and the hair. It is the most successful treatment for the scalp and the hair.

Farthest North Bank
Union Bank Will Open a Branch at Fort Smith, in Latitude Sixty Degrees North.

Carrying bank accommodation for the first time into the northern all district, the Union Bank of Canada will open a branch at Fort Smith, in latitude sixty degrees north. It is not to be expected that the Fort Smith Branch of the Union Bank of Canada is a profitable venture, particularly in its initial stages, but it is characteristic of Canadian banking that the banker should accompany the movement of civilization and development in any movement tending towards national progress.

THIN, Watery Blood
MEANS ILL HEALTH

Rich, Red Blood Brings Bright Eyes and Rosy Cheeks.

The girl who returns home from school or from work thoroughly tired will be fortunate if she escapes a physical breakdown, because, if getting tired so easily is probably the first warning symptom of a thinning blood that must not be disregarded if her health is to be preserved. A thin blood does not become thin and impure the patient becomes pale. It often suffers from headaches, palpitation of the heart, dizzy spells and loss of appetite.

In this condition Dr. Williams' Pink Pills will be found to have beneficial action on the blood. Miss Delina Lefebvre, St. Ambrose, Man., has proved this in her own case, and advises others to use these pills. She says: "Before I began the use of Dr. Williams' Pink Pills I felt like a complete wreck of my former self. My blood was poor and thin. I suffered from faint and dizzy spells, and had backaches and was nervous almost every day. I decided to give Dr. Williams' Pink Pills a trial. After the time I had used three boxes I felt much better and I continued to use the pills until I felt as well as I ever did. For what they did in my case I cannot recommend these pills too highly."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Germany's Oldest

Bell Broken

Was Cast In 1471 and Weighed Eight Thousand Pounds.

Berlin has just learned that the largest bell in the cathedral was broken in while tolling for the funeral of Kaiserin Auguste Victoria, and that having hidden away in this member of the Hohenzollern family who never heard again. The bell had been one of the most beautiful tones of any in all Germany. It was cast in 1471 and weighed 8,000 pounds. It is six feet in diameter. It was placed by Frederick the Great in 1747 in honor of a cathedral, which stood in the Lustgarten, near the royal palace in Berlin. It was installed in the present cathedral when that structure was completed seventeen years ago.

Will Direct Traffic to Canada.

The drastic immigration restrictions which have recently come into effect in the United States will, it is thought, have a natural sequence in the diversion of the immigration to Canada. Authorities are also of the opinion that the rigid enforcement of the act will result in the transferring of some of the vessels of the New York-trans-Atlantic fleet to the port of Montreal.

Manitoba Butter Production.

More than 8,000,000 pounds of butter were produced in Manitoba in 1920, according to L. A. Gibson, provincial dairy commissioner. Of this amount 5,000,000 pounds were exported.

Try Frozen Desserts

BY LORETTO C. LYNCH
An Acknowledged Expert in All Matters Pertaining to Household Management.

As the warmer days come, the frozen desserts should find place upon the table. Many don't want to make them more often than they do. Simply because they believe that to make a freezer full of frozen strawberries is much more trouble than to make a lemon pie. But is it?

The freezers on the market are simple of construction and easily save their cost in the first few weeks of their use. A freezer making as little as a pint may be obtained in the form of a pint gives two or three portions.

For general use, one-third as much salt as ice is used. The salt must be the coarse salt sold for this special purpose. The ice should be placed in a stout canvas bag and crushed into a mallet until quite fine. Large sharp pieces of ice have been known to pierce the tin containing the material to be frozen.

A freezer should never be filled more than three-fourths full, for any mixture expands in freezing.

Now for recipes. A one-hand cook really needs very few recipes. For instance, if you remember that a frozen dessert never tastes as sweet as it really is, you will know when you taste the mixture before it is frozen that it must taste unusually sweet. "Just right" will be its frozen state. The simplest frozen dessert, perhaps, is lemon pie. To make this, prepare an unusually sweet lemonade. A little of the grated rind intensifies the flavor of the lemonade. Freeze and serve.

For orange pie, prepare a very sweet orangeade containing some orange-rind, as well as part lemon juice. In fact, most every fruit contains part lemon juice, and presents an otherwise insipid taste. Frozen berries are prepared by adding one-half as much crushed and sweetened berries as you have sweet lemonade.

In freezing any ice it is not necessary to turn the handle continuously. A turn now and then is sufficient. When the handle begins to turn "hard," carefully remove the top of the can to prevent any vapor from entering and spoiling the contents of the can, scrape off the dasher, if there is one, and replace the cover. Plug up the hole in the cover with a cork or other device, add salt and ice to the pail and wrap a piece of canvas or heavy blanket over the freezer to prevent undue melting. Allow the freezer to remain undisturbed for an hour or longer before serving, if convenient.

Get Together Results

Benefit Derived From the Accredited Herd Plan for Coughing and Tuberculosis in Cattle.

A few years ago the United States breeders of pure-bred cattle, recognizing the necessity of more effective measures for the control of tuberculosis, arranged a conference with officials of the Bureau of Animal Industry at Washington, the result of which was the adoption of what is known as the Accredited Herd Plan, meaning that the herd had been thoroughly tested and found entirely free from any symptoms of tuberculosis. The plan proved so successful that a thousand herds being accredited in a brief period that a decision was arrived at to adopt the system in Canada. Regulations were promulgated which came into force in September, 1919, and have proved gratifyingly successful, a number of herds having been accredited while many others are under test. The agreement between Canada and the United States that cattle from accredited herds may enter either way, without detention or test.

Air Harbor For Regina.

The establishment of a municipal air harbor at Regina is now all but accomplished, fact, and of two sites submitted by the city to the Canadian Air Force Association, the one selected one comprising about one hundred acres. All that remains to complete arrangements is the receiving and erection of the Beesoon hangar, which has been reserved for Regina by the Canadian Air Board.

Manitoba Farmer Now So Strong He Can Put In Full Time at Work

"I was beginning to think I never would be myself again but Tanlac has put me back in as good health as I ever enjoyed in my life," said John Brown, well-known farmer of Saint Clair, Manitoba.

"I had a bad stomach and it had been troubling me for the past two and a half years. My appetite was fairly good; that is, I could eat but it looked like everything turned against me and brought on indigestion. Gas formed and would blow me up something awful. I slept poorly, lost weight and got so weak I couldn't hold weight on my work on the farm."

Harbor Cut Out Of Solid Rock

Basin Has Area of Two and One-Half Acres.

There is a natural impression that all construction engineering work was done in Great Britain a month or two before the war, but in point of fact it was found possible to keep quite a number of schemes going in spite of the concentration of effort upon definite war work. A case in point is supplied by an extensive harbor improvement which was begun in Great Britain a month or two before the war. The scheme included a new basin with an area of 2 1/2 acres and 1,500 feet of dock-work, all of which was completed through the war the work proceeded steadily, if slowly. Its most remarkable feature was that the basin was cut out of solid rock to give an average depth of 13 feet. The material excavated was ingeniously used to reclaim from the sea a considerable tract close to the harbor.

"Well, I'm mighty glad Tanlac came my way. I saw before I finished my first bottle that it was doing me good and now I feel as strong and healthy as I used to be years ago. My stomach never gives me any more trouble and I eat three good meals a day like a hard working man ought to."

Tanlac is sold by leading druggists everywhere.

Silos in Alberta.

Much activity in building silos is reported by a Leithbridge firm, which has completed of eighteen this year. It is estimated that between two hundred and four hundred silos will be erected in that district this summer.

The Endurance of Your Automobile, Truck, or Tractor

Depends not only upon the time of Lubrication.

WHITMORE'S AUTO GEAR PROTECTIVE COMPOSITION

Adds 200% to Gear Life. Thousands of tests have been conducted by Lubricating experts to demonstrate the relative efficiency of various lubricants. The results of these tests conducted over a long period have found piece of sixteen leading manufacturers. These manufacturers:

The largest builder of fine cars in the world; The largest builder of trucks in the world; The largest builder of axles in the world; The largest builder of worn gears in the world.

Many lubricants contain acid. They not only fail to counteract friction, but are themselves harmful and corrosive to gear and bearing surfaces.

Whitmore's Auto Gear Compositions Contain No Acid.

They are proof against heat and cannot break down or squeeze out. In the Panama Canal Emergency Dams, six million pounds rest on Whitmore's Auto Gear Compositions. After an exhaustive test the U.S. Army contracted for its exclusive use. Manufactured by The Whitmore Manufacturing Co., Lubricating Engineers, Cleveland, Ohio.

CANADIAN NATIONAL RAILWAYS

Meighen Is Opposed To Renewal Of Present Treaty With Japan

London.—The question of the advisability of renewing the Japanese agreement resolved itself into a full-dress conference of Premier's Right Hon. Arthur Meighen, who had circulated his case in a confidential document, and who intended to speak both briefly and at length at the conference for an hour. Premiers Smuts, of South Africa; Hughes, of Australia; and Massey, of New Zealand, followed with speeches of equal length.

Premier Meighen, it is understood, urged against the renewal of the treaty, either in the present form or with modifications. He pointed out the Canadian objections to it which were largely in line with his arguments already indicated in these dispatches, but reiterated the greater part of his case upon the claim that the old policy of alliance is out of tune with the times; that alliances as a means of maintaining peace have proved faulty in the past and that the time has now come when new methods ought to be tried for the prevention of war.

Dealing with the armaments, Premier Meighen drew a somber picture of the possible effects of the race in armaments between the British Empire and the United States.

The great task before the nations was restoration of the world's economic stability, shattered by war, the payment of debts and the removal from the shoulders of the peoples of the present terrible burden of expenditure on taxation.

Meighen drew a somber picture of the possible effects of the race in armaments between the British Empire and the United States.

General Semenov Disappears

Part of His Army Seen With Japanese Officers

Vladivostok.—General Semenov, the anti-Bolshevik leader, who for some time has been on board the steamer, Shoma Maru, from which he was permitted to land, has disappeared from the steamer.

Prior to the disappearance of Semenov, his troops were observed in the direction of Grodovok, about one hundred miles northwest of Vladivostok on the railway, from which place it is anticipated a separate government may be proclaimed.

One regiment which was seen on the way to Grodovok was accompanied by an automobile having in it both Russian and Japanese officers.

Semenov was perhaps the most prominent of the anti-Bolshevik leaders in Eastern Siberia until his forces and other opponents of the Moscow Government were badly broken up in the Bolshevik sweep across that vast area.

His forces, which were badly broken up in the Bolshevik sweep across that vast area, were badly broken up in the Bolshevik sweep across that vast area.

Expect Clean Up In England So

Development of Canada

London.—The immediate consequence of the miners' new agreement will be the opening of fresh coal seams which are known to exist in many coal fields in the north of England. These will now be exploited for the benefit of both parties and it is confidently anticipated that the whole-hearted co-operation between owners and men will result in such working conditions that the cheap coal will soon be available for the rehabilitation of industry generally.

Danger of Massacre In Asia Minor

Greeks Have Fractured Imitid and Burned Town

London.—The friction in the Imitid Peninsula in Asia Minor, where the Greek and Turkish Nationalist forces are opposed to each other, is growing more acute. The secretary for foreign affairs, stated in the House of Commons. Information received, however, as added, was that the army has been evacuated by the Greeks and was burning the town that there was great trouble in the district.

My First Dog Driving

By O-G-E-MAS-ES (Little Clerk).

(Copyrighted)

I received orders in January of the year 1914 to start west with the Winter Packet of the Hudson's Bay Company and had purchased a nice team of young dogs with light carle from a close home in from Swan River. The packet man was a famous traveller and known far and wide as one of the best long distance runners in the northwest. Port Johnny Beads, like so many natives, he did not stand civilization and went to his long home a year or so ago.

I had been a year in the Fort Garry sale shop and halted the confinement, and had made application on several occasions to be sent inland (as the area outside the Red River settlement was called in those days), but the matter dragged, and at last, on threatening to resign, I had my way. So the long-lost of time had come at last, and I was really off for the unknown interior next day. I slept mighty tight that night, having waking dreams of great prairie stretches covered with buffalo, high mountains and huge forests, with lakes as big as inland seas, and above all, a land of really wild Indians.

It seemed too good to be true. The morning came at last and with it the first day's ride, closing up important dispatches, it was after an early lunch before we left. I paid hurried good-byes to all my friends, and received a heavy hand clasp from Chief John H. McAvilly. He was at that time the uncorrupted king of the north, and was one of the best chiefs I ever had. His last words to me were: "If you don't like it in the north there is always a place for you here."

Johnny called "March!" and away we went. His dogs were a fearsome sight, the biggest I ever saw. They were called Brandy, Grog, Run and Wkey. They were all from the plains, were used to travel, and were as big as large Indian wolves, with spiky ears, and were grey and white in color. Both my young dogs and myself treated them by her usual respect—a distance—and they evidently had a contempt for us as green horses. They were loaded entirely with mail matter and, of course, dog food and provisions on top of this. His bedding was a single heavy blanket. The packet was to take them to Fort Carlton on the North Branch of the Saskatchewan. This was a distance of between five and six hundred miles, with many a long stretch of plain and but little wood here and there. Other packet men were not kind at Carlton, and on the great Northern Pack, only reaching some of the furthest posts on the coast, the greatest care was always taken of the precious mail matter.

My young train followed close behind me, and I noted Johnny studying my dog's gait from time to time. The first stop made was at Ogish (now H. B. Park), and Mr. Chisholm was hospitable as usual; in fact, too much so, as it was getting dusky before we pulled out for Fort Carlton.

Just as we were breaking up, Johnny, who by the way started badly, said "B-b-boy, your Herod (my foregoer) hauls too hard in front, so I will put him in the middle of my team and give you the Bull-Brandy ahead!" Well, I was green and knew no better, so he very quickly made the exchange, threw himself on his side and was off like a flash. When I called, "March!" the dog sat down on the road and eyed me with a wicked look. I took a step towards him and shook my whip. His dog was in the distance in my direction growling savagely, so I retreated. Well, I was in a quandary. Prigs forbade me going in and Chisholm's assistance. Suddenly I noted the fence, and taking a good-

Victory for Farmer Candidate

Medicine Hat Bye-Election Gives Gardiner Sweeping Majority Over Government Candidate

Medicine Hat.—The United Farmers of Alberta forces scored a sweeping political victory in the Federal bye-election here. Robert Gardiner, defeating Col. Nelson Spencer, the Government candidate, by a huge majority, which will probably reach the 8,000 mark when all the outlying polls are heard from. Spencer received only 1,000 votes in only three or four polls of the 148.

It had been generally conceded that the Farmer would get a large vote in the country districts. The late Allied Railway Commission demanded that Germany deliver five thousand railway cars to France and Belgium, of which the former country is to receive 1,500 and the latter 3,500.

Germany to Return Railway Materials Washington.—Germany has fulfilled her obligation to replace railway material taken by her armed forces from foreign countries during the war, according to advice received here in official circles. Develop, Frozen Fish Trade

Urges Campaign to Sell Canadian Fish in Great Britain

Ottawa.—An obstacle to the development of the trade in Canadian fish in Great Britain is that during the open season for salmon in Great Britain, Canadian frozen salmon is sold as English and Scottish. That in the closed season, from September to February, the demand languishes, as salmon is supposed to be a luxury.

This information is contained in a communication from J. Forsythe Smith, Canadian trade commissioner at Liverpool, to the weekly bulletin of the Department of Trade and Commerce. Mr. Smith's letter, however, is not a campaign to sell Canadian frozen fish in the British Isles. It states that fish weighing 7 to 10 pounds, fed the fish.

A Beneficent Rain

A most beneficent rain fell in these Districts commencing last Saturday at 6 p.m. and lasted until 10 p.m. on Sunday night.

The rain that fell during that period is almost a record - many Farmers said it went down 4 inches in the sod to 8 inches in the ploughed land.
This rain will save many Crops from utter failure - other Crops have completely gone.

While some Farmers will get no Crops at all and even now are needing Relief - other Farmers are reckoning on getting 4 Bushels to the acre, while many others are hoping for a 10 Bushel to the acre Crop.

Barfield has proved a complete failure. Why don't the Farmers get together and have Irrigation in these Districts? Irrigation is the only Salvation for these Districts and the only way in which any kind of a Crop can be raised with any degree of Certainty.

No Vote for the Farmers' Government to put in Irrigation in these parts

Creston B.C.

An all night rain was welcomed here Friday night.

While the starberr season will soon be over, the raspberry crop is coming on fine and will be a heavy crop this year, a few crates of cherries are on the market.

Mr. John Jacobson of Redcliff, Alta. arrived here last Friday and is working for Mr. Winlaw.

Messrs Kanute Bergan, Pete Wolford of Winnifred and Iver Peterson of Bow Island, Alta. arrived in town by motor last Saturday.

Mr. and Mrs. Walter Schoneer, Mrs. E. Brown and Mr. Kirsch of Kitchen were Creston visitors Sunday.

Master Dean Peairs and sister Ethel who are working in the berries at Duck Creek, spent Sunday at home.

The stores were closed here Dominion Day and quite a number spent the day fishing.

The Creston Ball team crossed the line on the 4th, and played Copeland Idaho. The results of the game are not at hand at this writing.

Mr. and Mrs. Peairs entertained at dinner Sunday: Mr. and Mrs. Schoneer, Mrs. E. Brown, Mr. Dick Kirsch, Mr. K. Bergan, Mr. Iver Peterson, Mr. Wolford, Mr. John Jacobson and Mrs. Bruce. As they were all old Alberta neighbours a good time was enjoyed.

The Weather July 1921

Friday 1st. Cloudy and cool
Saturday 2nd. Dull, rain all evening and all night
Sunday 3rd. Rain all day
Monday 4th. Cool and fine
Tuesday 5th. Sunny
Wednesday 6th. Hot and cloudy
Thursday 7th. "

Medicine Hat Speaks for West

Leader Crerar Declares People Have No Use for the Government or its Works

"Medicine Hat has spoken for Western Canada and the government and all its works have been rejected in no uncertain terms," said Hon. T. A. Crerar, leader of the National Progressive party.

"The feeling in Medicine Hat is inflamed by the overwhelming majority given the progressive candidate. The government repeating the tactics it followed, particularly in East Elgin and York Sunbury, and in other by-elections, spent money in abundance and created a prejudice or passion that would likely win votes and made the same attempt to set the cities and towns against the country districts what the voters, especially the labor men of Medicine Hat city, said to the government, will be reiterated by western opinion generally when the country has a chance to pronounce upon the record of the government. The voters of Medicine Hat put national issues before petty party appeals. Mr. Gardiner fought his election on economy in administration; better trade relations with the United States; opposition to the principle of protection in our tariffs and parity and economy in government administration. The result is a striking condemnation of the government. It is an evidence that public opinion is determined to get away from the other political methods and to introduce into the business of government better standards and better ideals. In this work city and country have an equal responsibility and in the Medicine Hat constituency they marched together for the accomplishment of this purpose."

Baseball Happenings

Winnifred Base Ball Team played Forty Mile Coulee Nine, on Dominion Day at Newdale district, the score was 13 to 9 in favor of Winnifred.

On Saturday July 2nd, Foremost beat Orion 6 to 0. Foremost winning \$125.00.

Bow Island Baseball Team have surely now got into their winning stride and are to be heartily congratulated on their victories, the latest of which was won from Burdett on Burdett's own ground, the score standing 19 to 0 in favor of Bow Island at the close of the game.

The Burdett baseball team played against Foremost on Friday, July 1st, the game being a part of the regular Rain Belt League schedule, and also a part of the U.P.A. celebration. Foremost won by 12-2. The game was played at Foremost's own ground.

ADDITIONAL BOW ISLAND

Mr. H. Bostle spent the week end at home with his family.

The Women's Institute held a picnic at Mr. J. Mitchell's last Wednesday. Everyone had a really good time.

Mr. and Mrs. Reardon and family were business visitors here on Thursday last.

Mr. F. Berry of Lethbridge was a visitor here on Thursday last.

Mrs. Spears three miles east of here was in town on business last Thursday.

F. E. Trautman of the Vice President's office of the C.P.R. was a business visitor to Bow Island on Thursday 7th.

Mrs. Archie Hoaglin was a business visitor to Winnifred on Thursday.

British Admiralty Pursues A Courageous Policy Of Most Rigid Economy

Great Britain is building four new battleships and orders for these have already been placed. It will be collected that these new ships were included in the naval estimates, announced some little time ago, and are to replace those of an obsolete type. Three years will be necessary to make the ships ready for sea and the approximate cost of each ship will run to \$9,000,000. In this announcement there is nothing to cause undue excitement, it being merely the sequel of a well-considered Admiralty scheme, which does not in any way involve a race in armaments. A diagrammatic statement is available of the number of battleships under the jurisdiction of the three leading naval powers, representing their position in the present year and what it will be in the year 1924, assuming that the four new British battleships are completed by that time. It reads:

United States	17	33
Great Britain	32	36
Japan	11	17

It should not be forgotten that naval armaments consist not only of ships, and in this connection it may be recalled that when Mr. Walter Long was First Sea Lord last year, he stated that the establishment of the British fleet should be 127,500, including officers and men. So far as armaments are concerned, the Admiralty has pursued a courageous policy of rigid economy since the close of the late war. Of the vessels which were under construction at the time of the armistice many hundreds were scrapped, and following that action, the Admiralty sent to the ship-breaking yards almost a couple of hundred completed vessels, embracing many classes of battleships, all considered more or less obsolete.

In the past, Great Britain maintained a two-power standard and afterwards built to maintain a 60 per cent superiority over each of the other two. Now a one-power standard is all that is aimed at. The British Admiralty, by its moderation, has set an example consistent with the policy embodied in the League of Nations.

The Change in Manners

Boston Professor Deplores the Modern Trend in Ship Board Manners. Boston's most distinguished octogenarian, President Emeritus Chas. W. Eliot, of Harvard, is discussing the manners of men and women. He says that he has watched young women and "ladies" for three generations, and their habits are changing tremendously since he was a young man! He says that young men and women do things now that would have been "simply out of the question" when he was young man. He says the girls expect young men to be rude. He says that young men and women are coarse even in their greetings and farewells nowadays. He admits that "an old-fashioned person like me" may misjudge the customs of today, and he tries to hope that the change of manners is for the better.

Dr. Eliot's remarks were made in an address to the Society of Harvard Dames in Cambridge, the other day, and were printed in the Harvard Alumni Bulletin.

Take Census of Blind.

As part of their peace-time programme a census of all blind persons in Saskatchewan is being carried on by the Provincial Red Cross Society. The work is being done for the Canadian National Council for the Blind, and was undertaken by the Saskatchewan advisory committee for this organization, the Red Cross Society, in facilitating to secure the information.

New H. B. Store For Victoria. The new Hudson Bay Company building at Victoria, B.C., represents an investment of \$2,000,000, and the fixtures, which are mahogany, another \$500,000. There are 100 employees employing between 250 and 300 people. Goods valued at \$1,000,000 have been purchased in England, and will be in the store when open for business in August.

Country Clergymen (to local men of all work): I want you to get the same wallpaper I have just had. Can you do it?
Well, sir, yes, I'm rather busy just now, but I'll pop round and hang your reverence on Wednesday—London News.

W. N. U. 1475

Good Farm Management

Good Manager Is Out to Make the Most Possible From This Year of Farm Operation.

Good management is the first essential to success in farming just as it is in any other business. The good manager is always on the alert for ways to improve his farm.

He is always planning for and securing things that will save his time and his labor, cut his production costs and enable him to make more money out of his farming business. This year is a special test for farm management, because of the conditions of disappointment in regard to last year's crops are inclined to be less active than usual. They are timorous and perplexed. Their plans for the year are indefinite. They are too likely just to "drift along," missing opportunities to advance themselves along the road of accomplishment.

The good manager, on the other hand, is out to make the most possible from this year of farm operation. Though the prospect for profits may not be so promising as it was in the spring of recent years, he sees opportunities as good as or better than they were in the years before the war. And he is studying out the ways to take full advantage of those opportunities.

The good farm manager knows the value of farm implements—knows that from this year of farm operation more must be kept low, good implements are more important than ever.

If he needs a new implement—careful consideration shows him that the use of the implement will aid in making his farming more efficient, make his time and labor worth more, and make him dollars ahead at the end of the year—he doesn't hesitate in buying it—Agricultural Alberta.

Large Auto Factory For Montreal.

It is reported that a large automobile corporation, capitalized at ten million dollars, will shortly be launched in Montreal. Negotiations are now practically completed by the various parties interested in this connection will be made shortly. The concern, it is understood, will engage in the manufacture and distribution of automobiles, with a large factory in the vicinity of Montreal.

Every time some men do a good act they manage to get caught at it.

Beaver Farm in Alberta

One of the Largest Beaver Farms in the West on Ribstone Creek.

Near Edmonton.

F. F. Parkinson, who has a farm two miles east of Edmonton on the Ribstone Creek, has probably one of the largest beaver farms in Western Canada, says the Edmonton Bulletin. Although beavers have become almost extinct in most parts of the west, under government protection during the past five or six years they have multiplied in the Ribstone Creek very rapidly and at the present time the stream where conditions are suitable they thrive in large numbers. The Ribstone Creek runs through a part of Mr. Parkinson's farm for a distance of nearly a mile. The creek, which is only from twenty to thirty feet high is bordered for the most part with poplar and willow which furnish a supply of food, and on wood for building their dams, as well as a protection. In this section of the stream it is estimated that there are several dozen beavers. Occasionally a beaver is seen at work, but it is impossible to determine the number, except by the evidence of trees being cut down and stored for food and the dams built.

The beavers are kept from moving up or down stream by a fence made of wire, built below and above the section of the stream which they inhabit. Mr. Parkinson intends to build a fence along both sides of the stream.

Beaver have been under government protection for a number of years, but special arrangements have been made in the case of beaver farms where the furs are sold through the provincial game guardian by tender, twenty-five per cent. of the sale price being retained by the government. From the standpoint of profit beaver farming ranks favorably with any other line of farm raising. They more than double in number every year and on an average the furs sell for \$50 each. This year, owing to the low prices of all furs the price is somewhat lower.

Young Lady (on first visit to a Western ranch): "For what purpose do you use that coil of line on your saddle?"

Cowboy: "That line, as you call it, lady, we use for catching cattle and horses."

Young Lady: "Oh, indeed? Now I may ask, what do you use for bait?"

World's Wheat Supply Expected To Be Short According To Experts

The Glacial Period

Life of Glacial Age Is a Puzzle to the Scientists.

When did the Glacial Period end? Was it an American scientist's penitence, as some have thought, or had it disappeared, or had it been discovered? Ask answers.

If the last mentioned, then we are still in the Ice Age, for Europe has its glaciers, and so has Labrador, the Rockies, Alaska and islands in the Arctic regions, and, as every school boy is aware, Greenland is nearly covered with an ice-cap.

But the question is settled by a reference to climate? If so, then the Glacial Period ended for, say, the Ontario region at the beginning of Lake Wisconsin, for its trees belonged to a cold, temperate climate.

Probably the point is best settled by making the Glacial Period a progressive event, regarding it as ending in one region perhaps thousands of years before it ends in another.

Without doubt, this far-off epoch of thick-ribbed ice constitutes one of the great mysteries of the world's history. It is absolutely hedged out with uncertainty.

Though it is generally believed that there was more than one Ice Age, no one can say with any degree of certainty whether there were three, four, or six, or a dozen, for the matter of that.

And the dearest of all mysteries connected with one or any of these ice periods is what was the cause of them. Both geologists and astronomers have, so far, failed to solve that problem. It is not yet even agreed as to what extent the ice-cap covered the globe.

Bound to Get Him.

The Mountie—Say, friend, my engine's stalled. Think you can help me find out what's the matter with it?

Constable Tallimber—I can, but I won't just now. I can't pinch you for speed, but in ten minutes I'll fix up your engine and then pinch you for parkin' here too long—Houson Post.

What a fine day!—I suppose that the accumulations since the armistice have been consumed, and that the world is more what it used to be.

India's acreage is 6,000,000 less than last year, and the export of wheat, instead of exporting, the country may import wheat before the end of the year. Official reports show a large crop of winter wheat in the United States, and weather conditions are mainly favorable in the Northwest and Canada. The wheat harvest is still on the knees of the gods, and will be until January. Crop reports must be read with a grain of salt. The world's dependence now, and an easy world situation cannot be expected—Wall Street Journal.

Dairies Are Profitable

Admission that the dairy farmer has suffered most severely of all agriculturists by the present decline in the price of his products. Professor L. L. Leitch, of the Ontario Agricultural College, Guelph, addressing 300 members of the Southern Ontario Ayrshire Breeders' Club at their annual picnic, declared that dairy production was the most profitable of all farming ventures.

Professor Leitch declared that dairy men getting up dairying and going into fruit farming, even though butter had declined from 60 cents to less than 25 cents in six weeks.

French Demobilises.

The French cabinet has authorized the war minister to begin demobilizing the bulk of the entire class of 1919 on June 25. The decision to demobilize this class was reached upon receipt of a report that the classes of 1920 and 1921 had been trained adequately.

Not Even a Comber.

A man sat in a fashionable coffee shop with his little daughter sitting on his knee. He was having a marble vase set in her hair. Stroking her father's gleaming head, the child suddenly piped:

"No waves for you, Daddy. You're all beach."

While a pretty woman may not care to be called a brainy woman always wants to be pretty.

EXTERMINATE THE GOPHER

Diagram Showing Lay-Out of Gopher Holes and Methods of Rodents in Storing Winter Wheat.

Coal Licenses in B. C.

During 1920 Twelve Coal Leases, Covering 7,680 Acres, Were Issued.

During the fiscal year 1920, 275 coal prospecting licenses were issued in British Columbia, covering an area of 126,500 acres, as compared with 113 licenses in the previous year and 72 in 1918, according to Hon. T. D. Pattison, Minister of Lands. The fees for these licenses were \$1,000 each, totaling \$33,381. Twelve coal leases, covering 7,680 acres, were issued during the year, as compared with none in the previous year and three in 1918. Revenue on account of coal lease rentals received during the year was \$52,427, and the total received by the Coal and Petroleum Act \$84,411.

The Earth's Population.

The population of the earth is estimated at nearly 2,000,000,000, certainly not less than 1,650,000,000. There are about 100 species of mammals, and 14,000 of birds, 7,000 of reptiles and 15,000 species of fish.

Bless Her Heart.

Papa (when Papa is somewhat ruffled)—Well, let it rain.
Little Girl (timidly)—I was going to say—Papa's Weekly.

Settle, the practice of a widow

sacrificing herself on her husband's funeral pyre, was made illegal in British India in 1829.

Alberta's Population

Is Placed at 620,000 by Provincial Statistics Branch.

Alberta's population is put at 620,000 by the provincial vital statistics branch. That figure has been made up on the basis of the births and deaths during the year 1919, the official report of which has just been issued.

Births in the province in 1920 numbered 16,565, a net decrease of 2,435 over those of 1919. The record for any one year had previously been held by 1918, but this last report goes beyond that record by 1,675. The birthrate per thousand of population was 27.2.

And the Edmonton and Calgary rat almost neck and neck in the birth race with 2,339 and 2,369, respectively. Children born of British stock predominated in both cities, and particularly in Calgary, where the figures were 1,099 British, and 727 Canadian. In Edmonton, the figures were 992 of British stock and 816 Canadian.

Woolworth Widow's Fine Home.

The Woolworth mansion at Glen Cove, occupied by the widow of T. W. Woolworth, is a magnificent structure, as imposing as it is grand, and like the Woolworth building in New York city, is most impressive in its size.

When a young widow asks a man whether he has his life insured he is actually slow if he doesn't take the hint.

Forestry Patrol By Aircraft

Machines Will Be Leased to Companies Interested in Experiment.

The value of lighter-than-air aircraft for forestry patrol and similar work in Canada will, it is expected, be demonstrated during the present flying season by several Canadian lumbering firms, working in co-operation with the Canadian Air Board. The machines, which are equipped with 100 horse-power Rolls-Royce engines, will be leased to the various companies interested in the experiment to the Air Board. It is expected that eight complete machines will be in operation in different parts of the Dominion during the year.

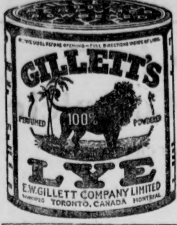

He Might.

"Look at the English Mr. Baker out on a day like this without an umbrella. Is he crazy?"
"I'm afraid he is. It's a hurry on. I don't want to meet him."
"Why not?"
"He may recognize this umbrella. It's his."

The patriotic man is loyal to his country, and to the community in which he lives. He is so conscientious he will give first preference to Canadian-made goods when making purchases. He is also staid loyalty by his local dealer.

There are some widows who will tell you that their husbands are "usually dead and dumb."

When a woman doesn't know her own mind it is time she sought an introduction.

World Happenings Briefly Told

Opening prices of California wine grapes this year have been set at \$80 to \$90 a ton, compared with \$40 and \$50 in pre-war prohibition days.

Miss Sadie Mossell, a young negro woman, received the degree of Doctor of Philosophy at the University of Pennsylvania, the first negro woman in the U.S. to be so honored.

During a thunderstorm at Gibraltar recently a shower of frogs fell on the North Front. Thousands of these small hopping creatures were to be seen in the hedges and aroused much curiosity.

R. M. Maxwell, president of the G.W.A., has definitely announced the postponement of the annual convention of the G.W.A., and the fall. The convention was to have been held at Port Arthur commencing July 4.

Canada's export trade with the Argentine republic showed a marked expansion, according to the weekly bulletin of the Department of Trade and Commerce. Since the year 1913 it has quadrupled and now stands at approximately \$8,000,000 per annum.

Quebec City has been chosen by the Catholic Hierarchy of North America for the holding of the 12th Eucharistic Congress in 1922. This announcement, which was issued by Cardinal Begin, has been communicated to all the churches of the diocese of Quebec.

An inspection of the proposed route of the St. Lawrence River Deep Waterways System from Montreal to Lake Ontario was recently made by members of both the Canadian and United States Governments and by prominent manufacturers and merchants of both countries.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard their normal development. The child in a constant state of unrest, and if not attended to, endangers life. The child can be spared much suffering and the mother much anxiety by using a reliable wormer. Write to Miller's Worm Powders, which are sure death to worms.

Grading of Dairy Products

The Proposed Grading Regulations Apply to Export

A bill to standardize the grading of dairy products has been introduced in the House of Commons. Replying to questions, Dr. Tomin said the proposed grading regulations would apply to export only. The Dairy Commissioner, he added, estimated that it would take a year for the campaign of education necessary before the system could go into operation.

A Friend To the Aged!

When men and women get past middle life, their energy and activity, in many instances, begin to decline. Their general vitality is on the wane.

The heart action becomes weak and uncertain and the nerves more or less unsteady.

Little sicknesses and ailments seem harder to shake off than formerly, and there are even times when a breakdown begins to appear.

Those who wish to retain their health and vigor and retain their energy unimpaired should use Milburn's Heart and Nerve Pills.

They make the heart beat strong and regular, brace up the nerves, soothe the nervous system, improve the memory, and impart a sense of buoyancy to the entire system.

Mrs. James Perry, Restlaw, Alta., writes: "Some months ago I was feeling well, my heart bothered me quite a lot, and my whole system was out of order. I sent and got two boxes of your pills. I took them for ten days and my what a change there was in me, and when I had taken the two boxes I felt like a new man. I tell you, now I am like them at all, and now I am like them at all, and now I am like them at all."

Price 50¢ a box at all dealers or mail order at \$1.00.

The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1375

The Search For Oil

Imperial Oil Co. Spends Huge Sum In Drilling For Oil.

According to A. M. McQueen, of the Imperial Oil Company, his company has expended to date more than two million dollars in making preparations, bringing in machinery and outfitting crews, and organizing gangs of drillers who are putting down holes from the international boundary north, almost to the Arctic Ocean. In addition to this, the Imperial Oil Company has erected its own machine shop in Calgary, and is doing all repair work on its drilling outfit used in Alberta and Saskatchewan.

Corns Between the Toes

Painlessly Removed
A real sure, dependable remedy that has been lifting out corns for the past fifty years will surely lift yours out. Dr. Hunsan's Corn Extractor is the reliable corn remedy—it stands the test of time and never fails, 25c every where.

Many Settlers Arriving

Seventy-Five Families Take Up Land in the Lloydminster District This Season.

The flow of settlers which the spring ushered in for the Lloydminster district is continuing unabated, and to date some seventy-five families have arrived and acquired land. Two or three times this number is expected before the end of the farming season. In addition to the marketing of five thousand head of cattle, two thousand hogs, and eight hundred sheep, more than two thousand bushels of grain were shipped from this district last year. An increase of fifty per cent. in the wheat yield from the increased acreage is expected this year.

Cheapest of all Oils—Considering the qualities of Dr. Thomas' Electric Oil, it is the cheapest of all oils offered to the public. It is to be found in every drug store in Canada from coast to coast. It is to the merchant in price it is safe. So, for the family and extremely moderate in price, no one should be without a bottle of it.

Plan Your Vacation Trip

Special Summer Tourist Fares to the Pacific Coast.

Special Summer Tourist tickets to Vancouver, Victoria, Seattle and the Pacific Coast are now on sale daily by the Canadian Pacific Railway. These tickets will bear a final permit until October 31st, and permit stopovers en route, which gives travellers an opportunity of visiting some of the beautiful resorts in the Rockies such as Banff, Lake Louise and Glacier, where the Company maintain splendid resort hotels. These tickets are optional with the main line or Arrow Lakes route, or one or both directions without extra charge. No expensive side trips permitted.

In addition to the "Trans-Canada Limited" exclusive sleeping car train, a choice of two other daily trains is offered, and all are equipped with open-observation cars through the mountains an excellent view of the magnificent scenery may be had.

Any Agent of the Canadian Pacific will be pleased to give further particulars and make the necessary arrangements for the trip.

Canned Dumber

No Chances Should Be Taken With Canned Foods.

In February of this year a woman in Seattle died from eating three small tins of canned beans. She knew the beans showed signs of spoilage, but she "tasted them" with fatal results. Referring to this case, the United States Public Health Service says that it is dangerous to eat any canned food that shows "the slightest unnatural odor, unnatural color, swelling of the container, signs of gas, or any evidence of decomposition whatever." Such food may contain the bacilli of "botulism," which often enters the body through dangerous or known organic poisons.

Value of Canadian Fisheries.

The fisheries production of Canada for the year 1920 reached a value of \$49,321,217, according to a return just issued by the Dominion Bureau of Statistics. The most important fishing industry accounted for \$44,300,000 of the total and Nova Scotia for \$12,700,000.

Patronize your local merchant and thereby help to build up your home town and community.

Bacon is more than twice as valuable as rump steak, from the nutritional point of view.

Minard's Lintment for sale every where.

EVERY WOMAN IN POOR HEALTH

Has an awful struggle. Lots to do, all kinds of worry, poor appetite, headaches, weakness. Her one desire is for more strength and better health. What wicked women and men need is a cleaning, blood purifying remedy like Dr. Hamilton's Pills. This wonderful medicine cleans out the wastes from the system, regulates the bowels, and the blood. It looks your best, to feel fit and fine all day, to be in the best of health, to feel like a new woman. Dr. Hamilton's Pills regularly, 25¢ in all dealers or The C. Hamilton Co., Montreal.

Swede Prince Breaks Records.

All hitherto hunting and trapping records have been smashed by Prince William, son of the King of Sweden. Press agents credit the Prince with trapping single-handed 24 porcupines, 14 lions, and many other animals, which he is bringing back from the interior of Africa to present to the Stockholm Museum.

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in their home may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera, infantum and diarrhoea carry off thousands of little ones every summer. In most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles. It given occasionally to the well or given when their coming on. The Tablets are guaranteed by a government physician to be absolutely harmless even to the newborn babe. They are especially good in summer, because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers everywhere at 25¢ cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Radium For Toronto.

Toronto General Hospital has bought 150 milligrams of radium from the Radio Chemical Co. of Pittsburgh, the largest amount owned in Canada by any institution. It is the maximum amount required for treatment of any cases. Heretofore the hospital has not owned any of this precious substance which will now be used in treatment of cancer cases.

A Negligee Of Coral Handkerchief Linen

By Marie Belmont.

Cool and inviting is this dainty negligee for summer days. It is fashioned from coral handkerchief linen, although you might develop it in any other shade you desire. If you preferred you might even use a pastel shade of satin or combine two shades of chiffon. It is cut all in one piece and an oblong piece is removed so that the negligee may be slipped over the head. This is outlined with coral embroidery. The sides are similarly adorned. They are fastened together under the embroidery.

to a point just beyond the waistline. About the shoulder the linen falls in pleasing lines. The satin sash and net finish add to the beauty of this model.

No surgical operation is necessary in removing corns. Hollister's Corn Remover be used.

Where World Gets Lumber

Canadian Vessel Fleets Vancouver With Over Five Million Feet of Pine and Lumber for Japan.

The biggest cargo of lumber that ever sailed from the port of Vancouver left recently on the Canadian Government steamer, Canadian Highlander. She had about 5,100,000 feet of ties and lumber for Kobe, Osaka and Nanking, Japan. There have been many three and four million foot cargoes sent from Vancouver in the past few years, and the Canadian Robert Dollar Company's big steamer, Robert Dollar, sailed recently from the port of Vancouver with 6,000,000 feet, but only 3,500,000 of this was loaded at Vancouver. One of the Coghlan steamers, operated by that company, took 4,800,000 feet last year, and set a record on that of the Canadian Highlander's cargo.

Worms cause fretfulness and rob the infant of sleep, the great trouble of the mother. Mother's Own Worm Expeller will clear the stomach and intestines and restore healthfulness.

Butter Output Increased.
The province of Saskatchewan has doubled the output of dairy butter during the past year. The total output for the first five months of 1921 was 67,174 pounds in comparison with 340,268 pounds for the same period in 1920, an increase of 331,906 pounds.

A temperance society was active in Wisconsin before the first brewery was built in Milwaukee.

And many a man's bravery is due to his knowledge of the fact that the other fellow is a coward.

Asthma No Longer Dreaded. The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So safe do they feel that complete reliance is placed on this sure specific with the certainty that it will do all that its makers claim. If you have not yet learned how safe you are with this remedy, get it and get it today and know for yourself.

A silent man is always worth listening to. The less advice a man hands out the more listeners he will have.

Fortune awaits the genius who can invent a drum that can be heard only by the small boy who beats it.

If half the average man's prayers were answered it would add to his troubles.

Pineapple, Chocolate,

VANILLA ICE CREAM.

CIGARS, CIGARETTES, TOBACCOS AND PIPES

CANDIES

CHOCOLATES

A Trial is Solicited.

A Good Place for Travellers to Refresh

The Review has been asked to print the following, although it cannot side with it, as the Review thinks, that it is to the interest of every Farmer to vote for their own Farmers' Candidate, in whatever District it may be.

No Vote for Lawrence Peterson the U.F.A. Candidate for the Taber Constituency

Some Farmers Endorse Hon. A.J. McLean

Some Delegates who Disagreed with Course of Taber U.F.A. Convention to Support Cabinet Minister

The delegates to the Taber constituency U.F.A. convention at Taber, who disagreed with the decision to place a Farmer candidate in the field against Hon. A.J. McLean, afterwards met and endorsed Mr. McLean as a man who had served the constituency faithfully and well. Mr. McLean accepted their endorsement and said he had no fault to find with the U. F. A. platform, in fact he was in accord with it. In addition to the planks of this platform, Mr. McLean expressed himself prominently in favor of irrigation development and extension, the most important question now before the people of the southern part of the province.

Mr. McLean stands as a candidate prepared to serve the interests of all classes as diligently in the future as he has in the past.

Only 9 U.F.A. locals out of 28 U.F.A. A. locals represented at Taber dropped their support of their own U.F.A. Candidate, this shows that the bulk of the Farmers are not to be turned aside from their path of Victory.

A most curious incident occurred when Ponka nominated a Liberal.

Labor co-operating with the Farmers can carry almost any seat in any part of these Western Districts.

So let the Farmers and Labor combine and then they will win all along the Line.

The Stewart Government are "canny" they pass some good Legislation and then go immediately to the people for re-election. This is an old Election

dodge, and the people wink knowingly at it. "Old Birds are not easily caught with Election Chaff"

Names of Farmer Candidates who were Nominated for the Provincial Elections against the Stewart Government

Name	Place	Date of Nomination
Lawrence Peterson	Taber	5th. July
W.H. Shield	MacLeod	5th. "
M.J. Connor	Warner	4th. "
E.G. Cook	Pinehook	4th. "
C.O.F. Wright	Ribstone	4th. "
V.W. Smith	Canmore	4th. "
G.W. Smith	Red Deer	5th. "
J.C. Buckley	Gleichen	5th. "
R.G. Reid	Vermilion	5th. "
D.S. Muir	Leduc	4th. "
L.C. McKinney	Clareholm	5th. "
G.L. Stringer	Cardston	4th. "
D.L. McPherson	Little Bow	4th. "
D.M. Kennedy	Spirit River	28th. June
John Dechene	Beaver River	28th. June

Auto Racing

Our autoists of today are far too daring, they appear to think that the Public Highway is really a Race Track and built especially for them, to enable them to show to the public what formidable Racers they are, those that think that, should take up Racing as a Living on the proper Racing Tracks and not go Racing along the roads regardless of danger to the ordinary pedestrian.

Inspector Risk of the

A.P.P. resigns to go into Business

Inspector Risk of the A.P.P., resigned last Wednesday from the Police Force, he has entered into partnership with Fred Threlk, of Lethbridge in the Gents Furnishings.

We think that Inspector Risk is far too able a man to be directed or influenced by any ordinary man and that after a good insight into the business his keen brain will seek yet higher plane of Success going into the business for himself. And may the "Best of luck" ever be his.

Farmers! Be Loyal and Vote for the Farmers' Candidate

Burdett's 4th. July Celebration Huge Success

Large Crowds turn out — Much Excitement —

The Baseball and Aeroplane Day held at Burdett last Monday the 4th. July was a great success. Hundreds of Farmers from all over the Districts flocked in to have at least one day of unalloyed pleasure to help drown out the memory, (for one day at least) of their devastated Crops.

The first Baseball Game commenced about 3 p.m. and was between Bow Island's Crack Team vs Burdett, after some keen and exciting play the game closed 10 to 6 in favor of Bow Island.

The second Baseball Game was between Burdett and Taber and many of the Fans declared that this was the Highest Class and Fastest Game that it has ever been their good fortune to see this year.

The score closed 5 to 6 in favor of Burdett, this was due to Burdett changing their Battery.

The Lethbridge Airmen, Messrs. Palmer and Fitzsimmons, greatly pleased the huge crowds by their smart Passenger Flights and between times fairly thrilled the crowds by their Daring and Graceful Stunts which included Volplanes and Loop the Loop and many other Hair Raising performances which seemed courting with Death and held the people nearly breathless, till they had had once again sighted themselves into seeming safety.

This greatly pleased a vast number of the crowd but others said "that the Earth still seemed good to them and never wanted to go any higher than about a foot from it."

Anyway, it was a good natured crowd and all went home feeling they had spent a really happy Day.

Much praise is due to the promoters of this Day of Sport and Fun and we finish by wishing them the "Best of Luck" and also this Eastern Benediction, "May they live for a thousand years and their shadows never grow less."

A Dance put on by the Ball Team in the Majestic Theatre last Monday evening was crowded.

Over fifty cars were parked in town after 10 o'clock.

The Ladies Aid of the United Church had a stall on the Baseball Grounds last Monday which was very successful.

The greatest praise is due the Ladies for their untiring zeal to which alone the success was due.

Mr. A.H. Rygg was a visitor to Lethbridge last Tuesday.

Mr. Geo. Kelly with his little daughter were visitors to town last Tuesday.

Mrs. Maled has two ladies visiting with her now.

Dr. Clancy was in Burdett last Monday owing to the rain he was not able to be in last Saturday.

Mr. S.T. Eford was a delegate to the Liberal Convention at Taber last Tuesday.

Mr. McNeil of the Trusts and Insurance Company of Calgary is taking an inventory of the Stock of the Burdett Cash Store which has been assigned to the Creditors of this Store.

Mr. Harry of Lethbridge was a business visitor to Burdett last Saturday.

The friends of Mrs. S.T. Eford will be pleased to hear that she is now improving after having had two serious set backs after her operation in Edmonton Hospital where she is now and has been there since the first week in June.
